**Subject:** RE: Uploading ND's Class VI Primacy Application (Program Revision) into the Docket

Lisa,

I would go with the most recent version. It is the closest to what should be the final version. We're still working the EPA emergency authority to inspect without notice issue.

**Subject:** Uploading ND's Class VI Primacy Application (Program Revision) into the Docket

Hi Craig,

I just wanted to let you know that I will be uploading ND's Class VI primacy application documents to the docket today. These documents will not be available to the public until the federal register notice is published. I know that you are working with Kevin in finalizing the MOA between NDIC and R8. I do not need a signed MOA for this part of the primacy process--public notice of receipt of ND's application. However, we will need the signed MOA for the rulemaking or approval part of this process. I can upload the most recent version of the MOA or the original version Kevin submitted with the other primacy application materials.

Thanks,

Lisa
